

Effective Monday, April 6, 2020, there will be no more 4-digit codes to access the community! The new gate call box will be installed with new procedures below.

1. All residents will have their last name, first initial listed in the gate call box directory.
2. You must designate a phone number (preferably cell phone #) with your name.
3. See owner info update form below.
4. Your visitors will dial you from the gate call box and you will press and hold 9 to allow entry.

If you have not already done so, complete the form below and return it to management prior to April 6th. If residents fail to do so, you will not have means to give your visitors access outside of gate attendant hours.

Remember, your fob will also open the gate. Use the black fob sensor found on the gate call box. It is on the current box and there will be one on the new box.
